FOR NEW-YORK OIRECT, The Action of the Control of t FOR NEW-YORK DIRECT.

NEWPORT,

BY CRINSTON & NORMAN, 127 THAMES STREET.

FRIDAY MORN'G JAPRIL 18, 1851.

San Accident .- A lad about 10 years of age, named Elisha Caswell, son of Job Caswell, was found floating in the dock just back of our office, yesterday about I o'clock. It is not known how long he was in the water; he had been absent from home about an hour and a half. His body was drawn out by a Loat-hook, and taken to his father's hante.

We have seen this little boy, in company with others, for reveral months Free go up and down the wharf, and we have long been fearful of some fatal accident of this kind. They have been in the habit of playing around the dock and in the hoats moored thereat, and were always in great danger. We tiust that this will prove a warning to them, and that parents will see, in future, that their children do not frequent the whitees as tauch as they have hitherto done.

An Inquest was held by Daniel C. Denham, Eug., Coroner, and a verdict rendered that he came to his death by accidental drosening.

In cases of this kind every possible effort should be made to resuscitate the apparently lifeless body, and it should be continued for hours, even though there may be no signs of life. The body should be stripped of clothing and rolled in a blanket and kept near to a hot fire. It should then be constantly and severely rubbed about the chest and bowels, with occasional pressure upon the lungs so as to install breathing as nearly as possible, by expanding and contracting the lungs. We have seen a person restored in this way, by working on him three hours, after he had been in the water two hours.

67 The storm has somewhat abated, although it is not yet over. We re ceived no mails from Boston or Providence Wednesday. The Providence mail arrived about 8 o'clonk, yesterday morning. The damage in Boston was quite extensive, blowing down houses steeples, chimnles, &c. Most of the wharves were submerged, and portions of the Maine and Old Colony Road. The Boston Mail of yesterday says,-The train from New York via New The train from Iyew York via New Haven, with the mail, arrived last ev-ening shortly before 9 o'clock. At Brighton the engine was detached, and the more closely arranged to the training of the the cars slowly propelled into the on portions of the "back bay" to a depth on portions of the "back bay" to a depth of nearly two feet. All the trains pass-ing from the city were propelled in the same way.

IF We call the ottention of our readers to the Auction advertisement, in another column, of the sale of furniture, china ware, &c., which will take place this morning at 10 o'clock, at the house formerly occupied by Judge Joslin in Felham street. It will be a rare chance for bargains.

Jenny Lind arrived at Louisville in a etage coach on Sunday last and was very quietly received. She was very hundsomely accommodated in the private mansion of Mr. Shreve, which had been placed at the disposal of the landlard of the hotel. Her first concert took place on Monday evening. The receipls were shou! \$10,000; the average price of tickets being \$9. A despatch from Barnum says that she will hasten on to New York and forego many of her expected delays in the cities of the West. She will commence her farewell concerts in New York on Monday the oth of May, the week of religious anniversaries, at the request of a large number of clergymen who design to be in New York at that time.

-"Livingeton's Law Reguter," is a rather curious statistical publication containing the name and address of every Lawyer in the United States, com piled from official returns obtained from the clerks, recording efficers, and where tils of the various counties. The whole number of lawyers in the United States seconding to this work, is 21,970. In the opinion of the Editor, the annual practice of each lawyer averages \$1 599, micking the total income of the profersion \$31,500,600 a year, allowing for about one thousand who have retired from the Bar. The number of lawyers in the State of New York is 4,374, in Massachusetts, 1,010, in Minnesota on-

Lo Alatina prompt differences el Fall River, on Saburday, it was vo ted-230 to \$4-to instruct the represen-Alives from that town three Whige, to Luie for Charles Sumner.

Or There is " a great and exceeding bitter cryb continually accending, "give us labor or we perish." That the want of it is owing often to the sufferers themselves, is a part of their misfortune .--Their ignorance, unthriffiness, extravagauce, even laziness itself, are frequently to be considered more as penalties than us crimes, so unfarorable are the elecumatances that have sucrounded and oppressed great masses of the people from their birth.

Society seems to be an institution for the protection rather than the production of property. Relief from that quarter of course is impeless, except to rescue from abrolute starvation, and not even always se much as that. Personal exertion is to be relied on mainly for perional and family support. Whitever tends to augment the variety of emplayments stimulates this industry, gives its reope and activity, and diminishes the impoverished and impoverishing army of the idle.

The want of domestic, we mean family industry, is remarkable. Time was, and not a very long while ago neither, when every member of a furnity of sufficient age had a Exed employment beyoul the mere preparation of provisions for the table and cleansing of the dinen of its immates. The amount of work ty, in proportion to its number, was out of all proportion to what is done now. It is no apology for the idleness of the age that modern machinery has deprived our families of those industrial processes which used to make them hives of self-supporting bees, that never had to borrow, and always had a surplus. They made, they mended. They spent the forencen in combing their flax, which their descendants now consume in combing their hair. They spun, not street, but woollen yarn, and wove it into family clothes, not head purses, that have nothing in them. Then we used to pick out the seeds of cotton-wool, before Whitney invented the gln; and stick our own cards, not for playing whist with, but carding cotton, which Whittemore's ingenuity has long since

Some of the occupations of former times are doubiless obsolete; but enough remain, with others since introduced, to keep the fingers from idleness, or what is worse, a uscless and most unnusical drumming on the pidnoforte. Luxury has driven away quite as many modes of industry as machinery. It is sometimes said that all the manufactures come much cheaper now than families can make them. That does not touch the difficulty at all. Is it cheaper for a family to how the six in a week, and their dangliters can make but one apiece? Or pay four stillings for a pair of slockings when they can knit them for nothing at all? The hands that are hanging idle, with the apology that they cannot do so much work as a machine in a given time, are without number, and the consequences are very serious on public prosperity and individual character.

When times are dull and labor gees a hegging for employment, there are persons who suppose that society or Government, which is its organ, ought to provide it from its own resources .-What and where are those resources ? Government accumulates not. It is the agent of society merely. It takes what is necessary for its own support, and leaves the rest. Individuels own the preperty of the world, and to them must labor make application for employment. But it is the duty of Government to enable its constituents to do this by judictous laws. Like the father of a family, it should discourage the purchase prevery kind of work which its members can accomplish for themselves. It is a ques tion of idleness or labor, and not whether his family can do the work as cheaply as any body else. If it does it at all, and thereby keeps them out of idleners, it is a clear gain to the amount of work performed. Government ought to encarrage the industry of the country in every possible way, but it cannot become accountable for its wages. Newarl Daily Advertiser.

Consecration of the Bishop of No-YA SCOTIA. The curemony of the consecration of Dr. Binney, of Worcester College, Oxford, to the hishopric of Nova Scotia and its dependencies, was of Lambeth Palace. The service was iron. performed by the Archbishop of Canterbury, the Bishops of London, Chich. ester, and Oxford; the Rev. Dr. Bin ney. (father of the new bishop), the Rev. Dr. Gouldburn, and the Rev. Mr. Thomas, chaplain to the Archbishop .-The whole of it was conducted in the next simple manner, no chanting or any but every part rendering different m fold from the massparent areas. The die been called, in paterwing the services of the Church in other places. The chapel was pretty well filled with visitors, among whom were many cier-

UPWe are indebted to Mr. Perry, the Operator in this town, for delivering to us, at a late hour last night, the following important and melancholly intelligence:-

BY TELEGRAPH TO THE NEWS

Boston, Thursday night, 10 o'clock, P. M.

We have just learned from Colmesel, of the destruction, by the severe gale, of the Light House on Minot's Ruck, and the loss of the two assistant keepers.

The news was communicated to us by Mr. Bennet, the keeper of the Light, who has arrived in the city with fragments of the structure.

The last time that the Light was zeen standing, was at about half past 3, yesterday afternoon, but the Light was not then seen burning. About 4 o'clock this morning, Mr. Bennett was on the Beach and discovered, strewed all around, fragments of the building; parte of the residence-room and of the lantern performed in those days by a communi- itself were on the beach, and also pertions of the bedding, Mr. Bennett's clohing,etc. One of Bennett's life-burys came on shore, having the appearance of having been used by one of the unfortunate men who were in the lighthouse; he had lashed it to his back, but the waves probably washed him out of it. Mr. Bennett was absent from the Light when the sad catastrophe occured; he had been ordered up to the city by Collector Greely, to purchase a new boat, and on his return. Tuesday afternoon, found the sea so high that he could not get out to the Light-house,to this he is indebted for the preservation of his own life.

. The names of the two persons who were in the Light were Joseph Wilson, a Portuguese, about 20 years of ago, Anthony, aged about 25 years; the latter formerly kept a Boarding house at Cohassett, they were both true and faithful men.

After being unable to get on board, Mr. Bennett went to his house at Whitehend, opposite the Glades, from which he and his family were washed out, yesterdny, by the high tides. Besides his etuning, air. Bennett lost some 50 or ou dollars in money which was in the Light

The beach is strewed with fragments of the wreck, some of which Mr. Bennett brought to the city and deposited at the Custom House,

The whole height of the Light was 75 feet; from the light to the keeper's house 6 feet; the diameter of the Iron posts was 8 inches at the base and 4.1-2inches at the top; breadth of base 25 ft.; keeper's room 14 feet; diameter of lantern 11 1-2 feet, and it contained 15 reflecters of 21 inches each.

It is but a few weeks since, when the public mind was excited in relation to this structure, that the engineer under whose superintendance the Light-house was built, in a long communication published in the Scientific American, demonstrated, on Scientific principles, that the building was perfectly safe; the nunication contained a most ungenerous sneer at the fears which had been expressed by Mr. Bennett for its salety. It has been thought by many that a structure so exposed, which oscilated at least 12 inches each way, in a gale, could not stand a storm of more than usual severity. This opinion of its insecurity was confirmed by the testimony of pilote, fishermen and other nautical men who were aware of the dangers to which it was exposed, and of the fearful force of the waves by which it was washed. It now appears by the testimany of Mr. Benrett that where strength performed on the 25th ult, in the chapel was most required the braces were cost

This Light-house cost a large sum of mency, and was of vital importance to mariners passing that fearfully dangerous ledge of rocks.

# POSTSCRIPT.

George Long, has been arrested on a charge of murdering young Rump. A witness saw him take the child into the slaughter house; and on arrest he made

a tull confession, and says the boy had a top cord he wanted him to give him; and on refusing, he dragged him into the slaughter house, and beat him on the head with a stone. The bruises on his sem was caused by his holding his lands on his face and head to protect himself from the blows. Long says the child was not dead when he left him; and that he intended to kill him to get the top cord. He went back late at night and heard him geoming. Long has been fully committed for trial.

BALTIMORE, April 15.

A black boy, 13 years old, named

Shove Daesses.-Mrs. Bloomer, eds. tor of the Lily, has adopted the "short dress and trowsers," and says in her paper of this month, that many of the women in that place (Seneca Falls) oppose the change; others laugh, others still are in favor, "and many have already adopted the dress." She closes the article upon the subject as follows:

"Those who think we look queer, would do well to look back a few years, to the time when they wore ten or fifteen pounds of petticoat and bustle around the hody, and balloons on their arms, and then imagine which cut the queerest figure, they or we. We care not for the fromns of over fastidious gentlemen; we have those of better tarte and less questionable morals to sustain us. If men think they would be comfortable in long, heavy skirts, let them put them on - we have no objection. We are more comfortable without them, and so have left them off. We do not any we shall wear this dress and no other, but we shall wear it for a common dress; and we hope it may become so fashionable that we may wear it at all times, and in all places, without being thought singular. We have already become so attached to it that we dislike changing to a long one."

IFA communication from Marblehead informs us that the only bell that was tolled in that town upon the announcement of Sims's departure, belonged to a church that has a clause in its deed prohibiting negroes from holding peres in it.-Boston Post.

IT3-It is stated in the Boston Traveller that President Sparks, of Harvard University, recovers but slowly from the effects of his accident, not having been able to lie down at all within a day or two past. It is feared that the injury will be more serious than was at never be permanently restored.

ILT An agency has just been established in Charleston, S.C., for the sale of tea plants and seeds, sent direct from China. Junius Smith, Esq., who has been for two years past making experiments in the cultivation of the plant in South Carolina, has remarked that it blossoms there and in China and India at the same time, and that the manner of its blossoming indicates a similarity of climate and an adaption of the temperature of the South to the successful cultivation of tea. The seed is of the size and color of a linzel nut, and contains an oily kernel.

ILF The Convention of Delegates from the States Rights Associations of S. C., is to be held on the first Menday in May next, at Charleston. Upon this Convention the future course of the State is, it is said, to depend. So far their almost unanimous cry is for secession. Mr. Rhett, at the recent preliminary meeting, made a speech in fav of secession, which was received with enthusiasm.

IF The sail makers of New Bedford have struck for higher wages .-They have heretofore received \$1,67 per day; they now demand \$2,00. The spar makers are also on a strike. The riggers have succeeded in obtaining \$2 per day. The ship carpenters were also successful last week in obtaining \$2,

INTERNATIONAL COURTESIES.—The Mayor of Limerick, Ireland, has invited the Major of New York, with others, to visit Ireland, during the time of the World's Fair, and to receive from the corporation there the honors and hospitalities of that accient city.

53- We understand, says the Baltimore Clipper, that a lortune of one million six hundred thousand dollars has been left in England by a family, to three risters residing in the western part of the city; besides a farm in Controville, Queen Anne's County, Md., valued at several thousand lon MARRIEN,

and through the season then commeacing. The house has a reputation
which may be envied by almost any kotel in the United States.—Pren. Post.

DISEASE EXTERMINATOR.

DISEASE EXTERMINATOR.

JAPERLENCE is the Busis of HI Rend Kanowledge, To SEE and to FEEL is to KNOW, and that which is seen and known must not be contradicted. When Galileo sommanced the discovery of now plants, the Aristotelians sold, "This is impossible," Galileo ceplied, "Look through my telescope, and hetald." The philosophers replained, "Web will not look leat we should see them." There are a few people nowardays restly that they will not look at facts lest some projectice should be disturbed. These persons a conveyer, not numerous, and their stopidity i have nobady but themselves. The character of Dr. S. F. Townsend's Compound Extract of Sarsaparitha rears upon universal experience alone. Without this solid foundation, it never could have attained the widespread popularity which it at present cajoys. It salve and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that science sanctions and vertical the varieties. it is only necessary to say that science exactions and verifies the wordest.

Dr. JAMES R. CHILTON, a Parsician and Chemist of the light rank, superintends the compounding of this Sarsaparilla.

rills.
Dr. S. P. Townsend's Sarsaparills has proved to the satisfaction of thousands, to be the Chrest Punissend the Brown and Present Stressory. gyga. It will not reduce the already debile tated, its Toxic Action being such as to STRENGTHEN, as well as to regulate the

#### SALT RHEUM, OF MANY YEARS STANDING.

THE following evidence of the efficiery of Dr. # P. TOWNSEND'S EXPLOY OF BARSAPARILLA

TAUMYNEARD EXPERCE OF SANSAFARILLA IN Cultarson Bissasse, in well worthy the notice of boses affected with such disagreeable surgitions:

New Year, August 6, 1830.

Dr. S. F. Tennisus—Dear Six: I am most happy to acknowledge that, after unfering for nearly nine years with the Sait Rheum in a very aggrarated form, and being shandowd as incurable by several sorm, and reasy standard of sincerable by several of our first physicians, I was finally personated to try your far-faund Sarasporilla. The effects were soon perceptible, and when I had creat ten bottles, to my great surprise I found myself not only cured of their medium. of that most divegreeable and irritating disease, but my general kells was so much improved that it astonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful a facts curing in numerour diseases, not altogether couled by a tad slate of the blood.

Yours most respectfully,
Mrs. JANE SHAW, for Third Avenue.
P. S. You have my consent to publish the above; and it will give me great pleasure to state my date personally to any lady that is similarly afflicted.

COUGHS AND COLDS,
Dr. S. P. Townsond's Excessperille contains just the qualities that are requisite in these cases. It acts as a mild alterative and expectorant, thus changing the action of the system, and enabling it to throw of the complaint. The number of instances in which Coughs and Colds have been cored by this prepa-

Broartes, June 11, 1910. Dr. S. ? Townsend-Door Sir: I was taken siek about a year ago, which was throught by many would result in Consumption. That used "old Dr." Jacob Townsend's (us he is called) Sarsaparilla which done me no good. I then tried yours and are most happy to say it has sufficely cured me. I am a alerk of Col. JAMES T. JACK, Etc., Coursellon at Law, Montague Rall, in this city. Yours, &c.

WILLIAM NEWTON BREFFIELD.

### DYSPEPSIA AND NERVOUS DEBILITY.

Gents :-- Gratitude will no longer present tay as knowledging to you how much I have been tone. Sitted by the use of Dr. S. P. Townsend's Sarraparills. For nearly a year I have been afficted with Dyspectic and Nerrous Debility; I had become at most discouraged, as my physicism's prescriptions were every day the same: "You require no medicine, but aversies in the open air, my good lady, or you will never yet wall." Feeling as I then did, this was not pry "cable. So I began, through the recommendation or "re. Carman, in Achana al., to take Dr. S. P. Towns - "Sarraparilla, She said R would strengthen and gr. -- "appetite, if nothing more. By her advice, sant \$2 - and obtained three bottles. Before I had taken alt on the first bettle began to feel stronger, sad spirits made improved-began to go out more or less every day. Here not taken all of the third bottle, as I find a reaspoorful now to have more effect than two tables you do is did at first. This, I have been fold, is one of the grea-secrets of the success of your medicine; that instead entracting, the does is diminished. I am you enjoying tetter health has I keep before for a year. As I am well keep to trany in your city is well as less Brooklyn, it might be to your interest to pub-Buh this, which you have my consent to do Tours, &c. MRS CAROLINE GRAHAM,

Music Teacher, Frespect street, Brooklyn. Brookles, June 5, 1554.

#### DR. HOOPLAND'S CELEBRATED GERMAN BITTERS,

Proposed by

D. C. M. JACKSON,

At the Gerban Medicine Score,

120 Arch State, Philodoptia.

Their power over the above discover is not ex-cellulating qualification on the proportion in the United States, as the care attent, a many ca-res after skilled physicians had failed. s after second pays those that taked. These Blacks are northly the attention of love-

lids. Possess agarest virtues in the rectification of diseases of the hiver and lower globals, exercising the most searching powers in weakness and affections of the disease organs, they are withal, rafe, certain and alousant.

READ AND BE CONVINCED. Chys. Robinson, Estp., Easton, Md., in a letter to Dr. Jackson, Janeury 9, 1850, said—— "My wile and ayardi have received more bene-fit from your medicine than any other we have ev-er taken for the Dyspeyda and Liver disease."

er taken for the Dyspepsia and Liver disease."

"The Truth Lerion," published at Woodstock Va., January 10, 1850, said—

"A GOLLY" MEDICINY."

"We have uriformly elimbedfrom recommending to the public any of the various Patent Medicines of the day, others thoroughly convinced of active of the day, others thoroughly convinced by Dr. Hoodsand, and prepared by Ur. Jackson, in Philadelphia. One instance in particular, for which the superior virture of this multicine has been tested, but fallen under our beev cation. During the last summer, a son of Mr. Abraham Cr. Lift, of this county, was very seriously sillectul with Liver Complaint, and ofter trying in vain various remedies, he purchased a battle of the Hitter, and ofter variously discussing malaby, that he produced another bottle, and is restored emission. while, that he proceed another battle, and is re

stored ventical to dealth to TACTS From Willia Weldon Herald, A. Lined : Weldon, N. C., January 25, 1850, which said-O Patent Malicines.

Wetton, N. C., Lemany 25, 1850, when saidO Patan Malicins.

O It is very rebban that we make any allasion
to Patent Medicines, either approxing or other
wise. Unfortunately for the country, and for honout and convections inventors and vanders of
these medicines, the had is Lecenting flooded with
quack preparations, that are made alone for profit,
and are fit and over for the dags. In this state of
things it is leard to tell which are, and which are
not worth having. If a person gets an indifferent
medicine the first time he purchases, has is very
apt to combine the whole of them and law no
more, and inventors reas only blame those of their
together for the purpose of meking money.) for
the ill secures which attends the effort of whe deterring.

"We believe Dr. C. M. Jackson's 'Hoofland's "We believe Br. C. M. Jackson's 'tromman's Gerrem Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of 'Femperance-- for they are altogether Veg table in their composition, without one drop of Alvohotic Spirits in them. This medicine is innecent, but strengthening in its effects, and right's descripting of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Liter M. U. Neab soil, in his a Weekly Mes-

ing of an unbounded popularity, which, when it becomes known, it will, in doubt, fully enjuy."

Judga M. M. Noah exid, in his "Weekly Mussinger," January 6, 1830,
"The Hooffloots' German Bitters.—Here is a preparation which the leading presses in the Union appear to the nominous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most echbedred physicians of readern lines—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Juna, private physician to the king of Perssis, and one of the greatest medical writers Germany has ever produced. In was emphatically, the enemy of hombor, and therefore a medicine of which he was the inventor and endoteer may be confidently relied on. He specially recommended it in Liver Complaint, Dyspensia, Bubility, Vertiga, Acidity of the Stemach, Constitution, and all complaints airling from a disordered condition of the stomach, the liver and the intestines. Nine Philodelphia happers experies their conviction of its secola nee, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present promitted of Effe. C. M. Jackson's) preparation, but in communicaling the article to all affiliated."

MORE EVIDENCE:

The CERSIS Standard German Pitter Palachest

MORE EVIDENCE.

MORE EVIDENCE,?

The "Philushhia Saturday Gazette," the best family newspaper published in the United States. The offer easy of BR. HOOFLAND'S GERMAN BITTERS:

"It is selden that are recommend what are terrard Patent Medicines to the confidence and paternage of one redens; such, therefore, when we recommend the Hoofland's German Bitters, we wish it to be distinctly two-tertond that we are not speaking of the nestrons of the day, that are noted about for a larief period and then forgotten after it has done its guilty rate of mischief, but of a medicine long established, universally prized, and which has met the Learty approlation of the farthy itself." faralty itself. \*\*

Evidence upon evidence has been received (like

the foregoing) from all rections of the Union, the last three years, and the strongest testimony in the trace, is, that there is mure of it weed in the practice of the regular Physicians of Philadelphia, than

tier of the regular Physicians of Philadelphic, than all other more unexconstructions, a fact that ran easily be established, and fully proving that a scientific preparation will meet with their quiet approval who presented even in this form.

That this medicine will care their Complaint and Desprises, no the can doubt after using it as directed. It nots specifically upon the stonach and liver; it is perfemble to calemed and billions discusses—the effect is irranchere. They can be administered to female or defend with safety and reliable benefit, at any time.
